

## HOGUE INC INTRODUCES NEW TACTICAL THUMBHOLE RIFLE STOCKS FOR HEAVY BARREL 10/22 RIFLES

Henderson, NV – Hogue Inc, America's premier manufacturer of firearm grips, rifle stocks, AR components, knives, holsters and gear has more good news for 10/22 owners: the company is now shipping one-piece, OverMolded® "Tactical Thumbhole" style rifle stocks for .920 inch diameter "bull" barreled carbines. Featuring a futuristic thumbhole/pistol grip design, an integrated cheek weld, a unique bench stop and a soft rubber butt pad, Hogue's new thumbhole rifle stock is optimized for quick and comfortable target acquisition with your preferred optic. "This new design will have strong appeal to target shooters, varmint hunters and competition shooters alike," said designer Pat Hogue. "It's a departure from our traditional rifle stock designs in some ways, but we think the market's ready for Hogue's take on a tactical 10/22 stock in OverMolded rubber."

The design process for Hogue's Tactical Thumbhole stock leveraged the company's considerable experience in competition shooting. From butt pad to forend the emphasis on ergonomics and function is obvious: the forend is wider and more curvaceous than the company's "Sporter" style rifle stock for more stability when used without a bipod; the pistol grip enables a natural, secure, comfortable grip angle; the cheek weld enhances fast target acquisition through a rifle scope and the bench rest hook opens up different shouldering options depending on the shooting situation.

Designed primarily for heavy-barreled (.920 inch diameter) 10/22 rifles, the new stock will also accommodate standard contour barrels. Tactical Thumbhole rifle stocks are available in Black (MSRP \$109.95) OD Green, Flat Dark Earth, Ghillie Green, Ghillie Earth or Purple (MSRP \$129.95 for colors). Like all of Hogue's rifle stocks, the new Tactical Thumbhole model is constructed using the company's popular OverMolded Rubber – a durable, comfortable, recoil-taming material that's impervious to dirt, grime and moisture.

Hogue's Tactical Thumbhole 10/22 stocks are also available for two-piece takedown style 10/22 carbines for both standard and .920 inch diameter barrels.

Hogue products are manufactured in family-owned and operated facilities under the direct supervision of the Hogue family. Hogue, Inc supports local dealers and encourages customers to purchase Hogue products locally.
