

HOGUE INC ANNOUNCES NEW POLYMER AND G10 TRIGGER GUARDS FOR AR-STYLE RIFLES

Henderson, NV – Hogue Inc, America's premier manufacturer of firearm grips, rifle stocks, AR components, knives, holsters and gear is pleased to offer a variety of trigger guards for AR-15 MIL-Spec style rifles, now in stock and available at your favorite Hogue dealer. "The MIL-Spec AR's trigger guard is an often overlooked component owing to its simplicity," explained Hogue's Neil Hogue, "but it makes a vital contribution to the firearm's overall safety so we didn't cut corners or make any compromises on our trigger guard strength and durability."

Hogue offers G10 contour trigger guards – extra roomy for gloved trigger hands – or straight G10 guards in a variety of beautifully-layered colors, hardware included. They're colorful, extremely tough and lighter than aluminum – attractive features for premium AR builders looking to add a little something extra to a new build.

For budget-conscious builders who don't want to compromise light weight and durability, Hogue now offers a new contour trigger guard in ultra-tough, high performance polymer at a \$12.95 price point, including hardware. "A polymer trigger guard is a natural for us, given our injection molding expertise," said Hogue. "There's strong demand out there for high-performance AR parts at aggressive prices. Our polymer trigger guard meets the demand for a tough, extremely light, easy-to-install product at a great price." Hardware (roll and plunger pin) is included so Hogue's polymer trigger guard – like its G10 counterpart – is a quick and easy install.

Hogue's G10 AR trigger guards are available in Solid Black, as well as Hogue's G-Mascus® line-up consisting of Black/Gray, OD Green, Flat Dark Earth, Red Lava, Blue Lava and Pink Lava. Contoured G10 guards are offered at an MSRP of \$29.95 while straight G10 guards are priced at \$24.95.

Hogue's new contour polymer trigger guards are offered in Black, OD Green and Flat Dark Earth (FDE) with an MSRP of \$12.95.

Hogue products are manufactured in family-owned and operated facilities under the direct supervision of the Hogue family. Hogue, Inc supports local dealers and encourages customers to purchase Hogue products locally.
