

THE HOGUE FULL-LENGTH ALUMINUM BED BLOCK STOCK FOR BOLT ACTION RIFLES

Henderson, NV – Hogue Inc, America's premier manufacturer of firearm grips, has manufactured the finest after-market rifle stocks for three decades. But, they've got a secret finally coming out of the bag! "Our aluminum pillar bed rifle stocks are very popular due to their quality and consumer-friendly price range, but many shooters are not even aware of our superior line of stocks: the Hogue full-length bed block stock," explained Hogue owner and stock designer Pat Hogue. "This bolt action rifle stock is quite simply the best option available to replace your factory stock."

The quality of the stock is apparent once inspected, and the point is driven home once the trigger is pulled. The secret lies with the molded-in precision CNC machined 7075-T6 aircraft aluminum block that completely surrounds the action and extends into the forend. This full-length block absolutely guarantees the ultimate in accuracy potential by providing rock-solid stability over the full length of the stock. "The full-length aluminum bed block which free floats the barrel yet creates a rigid barrel end results in a consistent point of impact that is unmatched," said Hogue.

Hogue's mastery of molding has created a process that causes the aluminum bedding to interlock with the polymer frame resulting in a mechanical bond instead of the traditional adhesive bond found on other stocks which begins to fracture over prolonged use. This stock is built so solid that when independently tested, it was the only stock that retained zero movement after a 30 foot drop test! Surprisingly, even with the solid build, Hogue's full-length bed block stocks weigh-in lighter than competitor stocks.

Along with enhanced accuracy potential, the stock contains all the usual popular Hogue features: they are OverMolded® with a durable, soft synthetic rubber with Hogue's unique Cobblestone™ texture; are equipped with two QD sling studs; and they sport the Hogue recoil pad which provides outstanding recoil control and shooting comfort.

Hogue offers models available for Mauser, Winchester, Remington, Savage, Ruger, Howa and Weatherby rifles and in Black, OD Green, Ghillie® Green or Ghillie Earth colored options. MSRP for the full-length bed block stocks in Black is \$259.95 while colors are priced at \$269.95 MSRP.

Hogue products are manufactured in family-owned and operated facilities under the direct supervision of the Hogue family. Hogue, Inc supports local dealers and encourages customers to purchase Hogue products locally. THE HOGUE® OVERMOLDED® RUBBER FULL LENGTH ALUMINUM BED BLOCK RIFLE STOCKS

Full-Length Aluminum Bed Block Advantages:

- ✓ The rigidity of the stock free floats the barrel which provides maximum accuracy.
- ✓ The aluminum bedding interlocks with the polymer frame which results in a mechanical bonding instead of an adhesive bond which fractures over prolonged use.
- ✓ Premium aluminum completely surrounds action area and eliminates action binding.
- ✓ The aluminum bedding surface fixes deviations in the rifle or stock and provides the optimal surface for glass bedding.
- ✓ Independently tested and was the only stock that retained zero movement after a 30 foot drop.
- ✓ Economical in comparison to composite stocks.

Hogue **recoil pad** provides outstanding recoil control and shooting comfort

Equipped with two **QD Sling Studs**

OverMolded® with a durable, soft synthetic elastomer (rubber)

Cobblestone™ texture provides an efficient non-slip, non-irritating stippling pattern

Full-length bed block molded directly into the stock

CNC machined 7075-T6 aircraft **aluminum block**

Provides **rock-solid stability** over the full length of the stock

Designed to **free float** the barrel for maximum accuracy

Rigidity of the barrel end holds the point of impact

Hogue Bolt Action Rifle Stocks are Available in Two Options:

Aluminum Pillar Bedding:

Hogue centerfire bolt action stocks come standard with aluminum pillar bedding inserted in the stock at critical action mounting bolt locations.

Pillar bed stocks weigh approximately 2 lbs., 10 oz.

Full-Length Bedding Block:

For the ultimate in accuracy potential a precision machined, full-length bedding block is molded directly into the stock.

Full-length bed block stocks weigh approximately 2 lbs., 15 oz.

MODELS AVAILABLE FOR:

- Mauser
- Winchester
- Remington
- Savage
- Ruger
- Howa
- Weatherby

Black Models: \$259.95 MSRP

Color Models: \$269.95 MSRP
