

HOGUE INC ANNOUNCES THEIR GLOCK 26 & 27 HANDALL® BEAVERTAIL™ GRIP SLEEVE

Henderson, NV – Hogue Incorporated is proud to announce the newest addition to their line of HandALL® Beavertail™ Grip Sleeves with a model precisely designed to fit Glock's 26 & 27. "Offering a Beavertail Grip Sleeve for Glock's double stack sub-compact 26 and 27 models is a direct response to customer requests," said grip designer Matt Hogue. "We have been making grip sleeves to fit Glocks since 1993. The enhanced precision features of our new unique-fit models are the next step in providing a long-lasting natural grip solution for today's shooters."

The Beavertail Grip Sleeve is installed by slipping it over the firearm's grip frame until it seats perfectly into position. The sleeve is precision manufactured to offer a more secure and comfortable fit. Once installed, the HandALL sleeve provides finger grooves for instinctive handling and control of the firearm. The grooves lead into a gentle palm swell that has been carefully designed to fit naturally in the hand. The beavertail built into the grip sleeve rises high along the backstrap of the frame. This provides full rubber contact with the hand allowing a higher hand-placement on the grip. In addition to protection and comfort, the beavertail also cushions the hand during recoil by providing better distribution of recoil forces. The built-in features of the grip sleeve provide comfort and confidence which in turn promotes accuracy.

The HandALL is built from a long-lasting durable thermoplastic elastomer compound. This rubber ages very gracefully and keeps a firm, tacky feel throughout the life of the grip. It will not harden, split or crack with age or usage. The surface is covered with Hogue's familiar Cobblestone™ texture, a series of small circular bumps that provide an efficient non-slip, non-irritating grip on the rubber. This model of HandALL Beavertail Grip Sleeves has an MSRP of \$10.95 for black, and \$12.95 for OD green, flat dark earth, pink and purple.

The grip sleeve also alternatively fits Glock's 31, 32 and 33 as well as H&K's USP Compact .40. Although not designed for a precision fit on these models, the grip will fit and function well.

Hogue Grip Sleeves are manufactured in their family-owned and operated facilities under the direct supervision of the Hogue family. Hogue, Inc. supports local dealers and encourages customers to purchase Hogue products locally. For more information please call Hogue directly at 1-800-438-4747 or visit www.hogueinc.com to find a Hogue dealer near you.
