

## HOGUE® INC ANNOUNCES NEW HANDALL® BEAVERTAIL™ GRIP SLEEVES TO FIT GLOCK'S COMPACT PISTOLS

*Henderson, NV* – Hogue Incorporated is proud to announce the newest additions to their line of precision fit HandALL Beavertail Grip Sleeves with 2 models uniquely designed to fit the compact Glocks 19, 23, 32 and 38. “We are extremely pleased to be adding grip sleeves that fit Glocks to our precision fit line of Beavertail HandALLs,” said grip designer Matt Hogue. “A Beavertail Grip Sleeve for a Glock pistol is continually among our top customer requests. The combined popularity of the Glock 19 and the precision manufacturing of our secure fit grip is going to be a rock-solid match. With 2 models available (one for Gen 1,2 and 5 models and the other for Gen 3 and 4) all compact Glock 19, 23, 32 and 38 models are covered.”

The Beavertail Grip Sleeve is installed by slipping it over the Glock's polymer frame until it seats perfectly into position. The sleeve is precision manufactured to provide a secure and comfortable fit. Once installed, the HandALL sleeve's finger grooves offer instinctive handling and control of the firearm. The grooves lead into a gentle palm swell that has been carefully designed to fit naturally in the hand. The beavertail built into the grip sleeve rises high along the backstrap of the frame. This provides hand comfort higher on the grip. In addition, the beavertail also cushions the hand during recoil by providing better distribution of recoil forces. The built-in features of the grip sleeve provide comfort and confidence which in turn promote accuracy.

The HandALL is built from a long-lasting durable thermoplastic elastomer compound. This rubber ages very gracefully and keeps a firm, tacky feel throughout the life of the grip. It will not harden, split or crack with age or use. The surface is covered with Hogue's familiar Cobblestone™ texture, a series of small circular bumps that provide an efficient non-slip, non-irritating grip on the rubber. The compact Glock HandALL Beavertail Grip Sleeves have an MSRP of \$10.95 for black, and \$12.95 for OD green, flat dark earth, aqua, pink and purple.

Hogue Grip Sleeves are manufactured in their family-owned and operated facilities under the direct supervision of the Hogue family. Hogue, Inc. supports local dealers and encourages customers to purchase Hogue products locally.
