HOGUE® INC ANNOUNCES NEW HANDALL® BEAVERTAIL™ GRIP SLEEVES TO FIT THE GLOCK 17

Henderson, NV – Hogue Incorporated is proud to announce the newest additions to their line of precision fit HandALL Beavertail Grip Sleeves with 2 models uniquely designed to fit the Glock 17. “The Glock 17 is a favored pistol for law enforcement, military and personal use all over the world” said grip designer Matt Hogue. “We are pleased to offer our highly popular HandALL Beavertail Grip Sleeves to fit this firearm. The reliability of the Glock 17 paired with the perfect fit of our HandALL make it an ideal combo for field carry or personal use at home. Two variations are available to ensure a precision fit: the first made for Glock Generations 1, 2 and 5 and the second for Generations 3 & 4.”

The Hogue HandALL Beavertail Grip Sleeve is installed by fitting it over the Glock’s polymer frame until it seats perfectly into position. The sleeve is precision manufactured to provide a secure and comfortable fit. Once installed, the HandALL sleeve’s finger grooves offer instinctive handling and control of the firearm. The grooves lead into a gentle palm swell that has been carefully designed to fit naturally in the hand. The beavertail built into the grip sleeve rises high along the backstrap of the frame. This provides comfort for your hand higher on the grip frame. In addition, the beavertail also cushions the hand during recoil by providing better distribution of recoil forces. These built-in features provide comfort and confidence which, in turn, promote accuracy.

The HandALL is built from a long-lasting durable thermoplastic elastomer compound. This rubber ages very gracefully and keeps a firm, tacky feel throughout the life of the grip. It will not harden, split or crack with age or use. The surface is covered with Hogue’s familiar Cobblestone™ texture, a series of small circular bumps that provide an efficient non-slip, non-irritating grip on the rubber. The Glock 17 HandALL Beavertail Grip Sleeves have an MSRP of \$10.95 for black, and \$12.95 for OD green, flat dark earth, aqua, pink and purple.

Hogue products are manufactured in their family-owned and operated facilities under the direct supervision of the Hogue family. Hogue, Inc. supports local dealers and encourages customers to purchase Hogue products locally.
