# COUNTERSTRIKE

OUT THE FRONT AUTOMATIC

PROUDLY MADE IN THE USA

**HENDERSON, NV** – Introducing the Counterstrike, the lightest, slimmest and most refined out the front to hit the Hogue Knives lineup of American-made knives. Designed by Jim Bruhns, Master Tool Maker and President of Hogue Knives, the Counterstrike defeats any notion of trigger rattle or blade play – shortcomings that nearly all automatic out the front knives experience. With an aesthetically balanced blade-to-frame ratio and an unwavering double-action, the Counterstrike is destined to impress even the most critical knife enthusiast.

These new Counterstrike models feature CPM 20CV blade steel, cryogenically heated treated at 59–61 HRC, and are available in tanto and drop point profiles with stone tumbled or black PVD finishes. At 2.9 oz, the knife retains extremely light weight through a streamlined, 6061–T6 anodized aluminum case coupled with an elegantly milled G10 cover. The Counterstrike includes a deep carry, ambidextrous pocket clip and a carbide glass breaker with lanyard loop. Each package also includes a filler screw for those that prefer to remove the glass breaker attachment.

Every Hogue knife is made in the USA and is backed by three generations of manufacturing expertise. Hogue automatic knives are only for sale to legally permitted users through authorized dealers. For more information, please call Hogue directly at 1-800-438-4747 or visit [www.hogueknives.com](http://www.hogueknives.com).
