

EX-02

The EX-02 is modeled after Allen Elishewitz's TANK custom which aptly describes its characteristics. A stout, robust construction, versatile spear point and pointed pommel give this knife a distinctly tactical feel. The EX-02 BALL CHECKERED flipper pictured is the latest addition to this line up.

EX-02 knives come in Tanto or Spear Point blade profiles and/or with thumb studs. Visit page 23 to view all available models.
