CARE AND MAINTENANCE

Misuse of any tomahawk can cause breakage and can cause serious injury or death. Improper care can cause mechanisms to not function correctly.

Maintain your tomahawk as you would any precision instrument.

- Keep the cutting edge sharp.
- Keep the blade clean using an appropriate cleaner and be sure to keep a light coat of machine oil on the blade.
- Periodically inspect the tomahawk for loose parts and fasteners and tighten using appropriate tools.
- Do not disassemble the tomahawk. Your Hogue tomahawk was professionally assembled for lifetime operation. Any attempt at disassembly voids the tomahawk's warranty.
