

## Competition Belt Sizing Chart

Constructed with MilSpec ballistic nylon, these velcro inner and outer belt sets are designed specifically for the competition shooter. The inner belt is worn in standard belt fashion, through the belt loops of your pants, with the outer belt velcroed securely to it. This design allows for the repositioning of your shooting gear along the belt without having to remove it.

Measure your waist inside belt loops for accurate belt fitting.

### Competition Belt: 1.5" Width

Waist Measure	Part #
28"	50528
30"	50530
32"	50532
34"	50534
