Hogue Knives are built around precise engineering and stringent manufacturing practices that equal exceptional performance. The team is led by Master Tool Maker Jim Bruhns and his partner Neil Hogue. Each knife that leaves the floor leverages the know-how of three generations of passionate craftsmen who are also end users.

The patterns that we produce are designed by former Recon Marine, martial artist and custom knife maker Allen Elishewitz. Allen’s real world experience both in the shop and on the field ensures that the designs are functional and ergonomically sound.

All of our knives are meticulously crafted in the USA. This not only helps to support our economy, it also allows us to be involved in, and maintain the highest level of quality during every step of the process.

At Hogue Knives we strive to ensure that we deliver the best possible fit, finish and function that we are capable of producing so that your knife is dependable and can be enjoyed for a lifetime.

Hogue Inc. is a family owned and operated business that was founded in 1968 by Guy Hogue. Guy’s legacy of innovative, high quality American engineering and craftsmanship has been carried forth under the leadership of sons Aaron Hogue (President), Pat Hogue, grandson Neil Hogue and partner Jim Bruhns (President of Hogue Tool and Machine).

MATERIALS

HOEGE KNIVES® ONLY USES HIGH QUALITY U.S. SOURCED MATERIALS. THEY ARE SELECTED BASED ON A BALANCE BETWEEN DURABILITY, MAINTAINABILITY AND AESTHETICS.

BLADE STEELS

In order to fully leverage their cutting properties, all of our blades are cryogenically treated to maximize the transformation from the Austentic to Martenstic phase.

154 CM

*Chemical Composition (AISI)

154 CM is a hard working, highly stain resistant steel that takes and holds a keen edge. It is used in our fixed blades, folders and automatic knives. We finish the surface with either a well wearing stone wash or abrasion resistant, kiln baked Cerakote™ firearms coating.

CPM154

A2 is used for our EX-F01 fixed blade series. This carbon tool steel has an excellent reputation for toughness, making it a great choice for hard-use, field knife applications. To improve corrosion resistance it receives a Cerakote finish.

S7

S7 is a carbon tool steel that is used for our Tomahawk design. It has been chosen due to its excellent shock resistance. S7 blades come with a matte Cerakote finish that helps to prevent corrosion and glare.

All our edges are hand honed to a mirror finish.

Every blade is carefully measured before finishing.
SCALE MATERIALS

WE OFFER A WIDE SELECTION OF HANDLE MATERIALS TO MEET OUR CUSTOMERS’ SPECIFIC NEEDS AND PREFERENCES.

Our patented G-Mascus® G10 is available on most models with several also being offered in solid black G10 or hi-tech polymers. G-Mascus is a material comprised of composite layers that are distributed in a way that when machined, leave a Damascus-like surface pattern. G10 as a base composite offers proven durability, is nearly impervious to chemical and moisture damage and is colorfast.

Solid metal handles are made from aircraft grade 6061-T6 aluminum that’s given a Type III, Mil-Spec hard anodize coating. Anodizing is available in three colors on select models.

The EX-F02 handles are GRP (Glass Reinforced Polymer) while the EX-03 and EX-A03 handles are Glass Reinforced PPS (Polyphenylene Sulfide). PPS provides excellent thermal stability and toughness for a consistently smooth action. The EX-F02 has an additional, soft OverMolded® TPE (Thermal Plastic Elastomer) section adding to the all-weather grip. The polymers used in Hogue Knives® are extremely hard wearing, impact resistant and lightweight.

Cocobolo hardwood is available on select models of the EX-F01 fixed blade, paying tribute to a classic elegance.

SHEATH MATERIALS

Our fixed blade sheaths come in two varieties. Ballistic Nylon with a polymer insert is used for the larger EX-F01 series knives. The medium sized EX-F02 and smallest EX-F03s have durable, Super Tough Nylon sheaths.

All Hogue folders include a zippered pouch.
Hogue Manual folders represent the culmination of our capabilities and experience resulting in a superior balance of fit, finish and function.

They have been engineered from the ground up to tackle any cutting tasks you put them to. Sizes range between a smaller EDC (Every Day Carry) size to a formidable large edition.

All of the materials are sourced in the USA. The blades are 154 CM or CPM154 stain resistant steel that is cryogenically heat treated to a Rockwell of 57-59 then hand honed to a razor sharp edge. Select models are available with a media tumbled surface (stone wash) while others have a matte, abrasion and corrosion resistant kiln baked Cerakote™ firearms finish.

The handles of our folders are offered in a variety of high quality materials that offer exceptional wear resistance and beauty. Each grip is carefully sculpted for outstanding ergonomics, ensuring that your Hogue knife is comfortable and secure in use.

When deployed our folders are held open with a tough, yet smooth operating button lock, whereas the EX-O2 has an equally sophisticated liner lock. Although capable mechanisms on their own, both lock types are backed up with an additional manual safety that locks the knife open for peace of mind during harder use.

Beneath the scales, the button locks are mounted into an innovative, recessed stainless steel “bolster plate” to ensure rigidity and long wear. The robust, custom made hardware on all moving parts is over-sized and heat treated.

For convenient carry and quick access, all models have a pocket clip and either a hidden lanyard pin or hole.

Be confident that every aspect of your Hogue folding knife has been refined to offer the best possible longevity and performance.
Hogue Automatics offer impressive speed and exceptional reliability.

These knives range in size from 2.75” to 4.0” and have the same feature set as the manual folders with the addition of two key elements: The auto mechanism and the manual safety that locks the knife both open and closed to prevent misfiring.

Deployment is based around a strong, custom designed, over-sized coil spring that has been extensively tested and integrated to provide force along the pivot’s entire range of motion. The result is an automatic that kicks open with authority every time you call on it.

Each automatic is individually tested and laser etched with a unique serial number before it bears the Hogue® name.

Pictured: EX-A04 Upswept in Solid Black G10
The X1-Microflip button lock flipper and the AO1-Microswitch are Hogue’s latest additions to our quality line of folding models. The Micro’s unique patent-pending blade retention device allows for one-handed deployment and closure without placing the hand in the path of the blade.

- 2.75” DROP POINT BLADE
- 6.67” OVERALL LENGTH
- 3.2 OZ WEIGHT
- TUMBLED OR CERAKOTE™ 0.120” THICK CPM154 STAINLESS
- CRYOGENICALLY HEAT TREATED TO 57-59 RC
- HOLLOW GRIND - HAND HONED EDGE
- MICROFLIP: AMBIDEXTROUS FLIPPER DEPLOYMENT
- MICROSWITCH: AUTOMATIC BUTTON DEPLOYMENT
- 6061-T6 HARD ANODIZE ALUMINUM FRAME WITH STAINLESS STEEL BASEPLATE
- PUSH BUTTON LOCK
- DEEP CARRY TIP UP REVERSIBLE CLIP WITH FILLER PLATE
- IMPACT POMMEL

Visit page 19 to view all models.
The EX-01’s AND EX-A01’s methodical design pairs an elegant exterior and high end materials with an overbuilt frame that supports a fierce cutting edge. As our first folding knife this model has become a guiding principle.

Available in Tanto and Drop Point blade profiles. Visit page 20 to view all models.
The EX-02 is modeled after Allen Elishewitz’s TANK custom which aptly describes its characteristics. A stout, robust construction, versatile spear point and pointed pommel give this knife a distinctly tactical feel. The EX-02 BALL CHECKERED flipper pictured is the latest addition to this line up.

Available in Tanto or Spear Point blade profiles and/or with thumb studs. Visit page 21 to view all models.

- 3.375" OR 3.75" SPEAR POINT OR TANTO BLADE
- 7.875" - 8.75" OVERALL LENGTH
- 5.04 - 7.08 OZ WEIGHT
- TUMBLED OR CERAKOTE™ 0.150" THICK 154 CM STAINLESS
- CRYOGENICALLY HEAT TREATED TO 57-59 RC
- FLAT GRIND - HAND HONED EDGE
- FAST, RELIABLE FLIPPER DEPLOYMENT
- G-MASCUS G10 OR SOLID BLACK G10 SCALES
- LINER LOCK WITH MANUAL SAFETY (LOCKS OPEN)
- TIP UP OR DOWN POCKET CLIP & HIDDEN LANYARD PIN
- IMPACT POMMEL
The EX-03 and EX-A03 are light weight versions of the EX-01. The handle is PPS with our stainless steel bolster plates molded into the innovative, one piece construction. PPS offers toughness and thermal stability to ensure a consistently smooth, precise action. Grip-adding textures cover the surface and the pommel is pointed for added utility.

Available in Tanto and Drop Point blade profiles. Visit page 21 to view all models.
The EX-04 and EX-A04 has remarkable ergonomics due its fully sculpted handle. The blade is a unique double hollow grind, the only one of its kind offered on a production knife. Both the Upswept and Modified Wharncliffe profiles are as distinct as the knife’s edge geometry.

- **3.5” OR 4.0” UPSWEPT OR MODIFIED WHARNCLIFFE BLADE**
- **8.00” - 9.00” OVERALL LENGTH**
- **4.48 - 5.68 OZ WEIGHT**
- **TUMBLED OR CERAKOTE™ 0.150” THICK 154 CM STAINLESS**
- **CRYOGENICALLY HEAT TREATED TO 57-59 RC**
- **DOUBLE HOLLOW GRIND - HAND HONED EDGE**
- **EX-04: AMBIDEXTROUS THUMB STUD DEPLOYMENT**
- **EX-A04: AUTOMATIC BUTTON DEPLOYMENT**
- **G-MASCUS G10, SOLID BLACK G10 AND ALUMINUM SCALES**
- **BUTTON LOCK WITH MANUAL SAFETY (LOCKS OPEN)**
- **TIP DOWN POCKET CLIP & LANYARD HOLE**
   (ALUMINUM MODELS HAVE TIP UP CLIP)

Available in Modified Wharncliffe and Upswept blade profiles. Visit page 22 to view all models.
The X5 button lock flipper's unique patent-pending blade retention device allows for one-handed deployment and closure without placing the hand in the path of the blade. The precisely designed recesses and curvature of the knife provide a natural, ergonomic grasp when in use.

Available in Spear Point and Modified Wharncliffe blade profiles. Visit page 23 to view all models.
Hogue’s Out the Front automatic knives are designed for reliable and repeatable one-handed operation in close quarter situations. A smooth slide of the trigger fires the blade with impressive force. The anodize 6061-T6 aluminum frame is sculpted for an ergonomic grasp and comfortable deployment.

Available in Clip Point and Tanto blade profiles. Visit page 24 to view all models.
Hogue’s fixed blade designs have been developed to meet the requirements of professionals and adventurers alike.

The robust EX-F01 comes in two sizes and lends itself well to demanding tasks. It is available with different materials and finishes for a low key visual footprint.

Each EX-F01 is paired with a matching heavy duty ballistic nylon or automatic retention polymer sheath.

The EX-F02 has been developed with the outdoorsman in mind. A carefully considered grip supports your choice of two blade types for all your utility and sporting needs. This knife ships with an innovative ambidextrous auto retention sheath made from super tough nylon.

For smaller discreet carry or as a backup tool, there are the EX-F03 models. Full steel handles are available with a neck knife style sheath while scaled editions ship with the neck knife and rotatable belt sheath. Neck knife sheaths are made from Boltaron® while the belt sheath is made from super tough nylon.

Diverse blade profiles and coatings can be had ensuring our fixed blade line has a model suited to your specific application.
EX-F01

The EX-F01 is a full tang powerhouse that effortlessly fills the role of a tactical or survival tool where durability is paramount.

The intelligently designed EX-F01 sheath has webbing on the front and back for modular attachment and can be expanded on using our optional MOLLE pouches.

Our saw teeth tanto blade models come with a newly designed ambidextrous Automatic Retention Sheath offering a secure yet quickly accessible option of carry.

- 5.5" OR 7" BLADE
- 10.5" - 12.0" OVERALL LENGTH  • 10.4 - 12.4 OZ WEIGHT
- 0.235" THICK A2 TOOL STEEL
- CRYOGENICALLY HEAT TREATED TO 57-59 RC
- FLAT GRIND - HAND HONED EDGE
- LANYARD/LASHING HOLES
- IMPACT POMMEL

TANTO BLADE MODEL:
- BLACK CERAKOTE™
- BROAD REAR SAW TEETH TIP
- G10 SCALES
- AUTOMATIC RETENTION POLYMER SHEATH
- TORX TOOL IN SHEATH

DROP POINT BLADE MODEL:
- CERAKOTE™ COATED
- G-MASCUS® & SOLID G10
  OR HARDWOOD SCALES
- BALLISTIC NYLON MOLLE SHEATH
- TORX TOOL
  (G-MASCUS G10 MODELS ONLY)

Visit page 25 to view all available models.
The EX-F02 has a thinner blade geometry making it an excellent slicer suitable for outdoor tasks from food prep to wood processing and dressing game. A full length hidden tang is sealed and protected by the GRP (glass reinforced polymer) handle. Strategically placed texturing adds to the exceptional all weather grip.

The ambidextrous auto retention sheath allows you to effortlessly stow the knife safely and securely without inhibiting access when you need it. The sheath attaches with Pull-The-Dot® fasteners that pair well with belt carry or modular webbing systems.

- **4.5" TANTO OR CLIP POINT BLADE**
- **9.00" OVERALL LENGTH**
- **5.50 OZ WEIGHT**
- **TUMBLED OR CERAKOTE™ 0.160" 154 CM STAINLESS**
- **CRYOGENICALLY HEAT TREATED TO 57-59 RC**
- **FLAT GRIND - HAND HONED EDGE**
- **G10 OR GRP HANDLE WITH TPE OVERMOLD®**
- **LANYARD/LASHING HOLES**
- **INNOVATIVE, SUPER TOUGH NYLON AMBIDEXTROUS AUTOMATIC RETENTION SHEATH**
- **MOLLE COMPATIBLE BELT LOOPS**
- **AVAILABLE WITH OPTIONAL NEOPRENE LEG MOUNT & AUTOMATIC RETENTION SHEATH (SEE PAGE 26)**

Sliding the Auto Retention Sheath levers from either side quickly and safely releases the EX-F02.
EX-F03

The EX-F03 is a discreet, compact knife that’s easy to take everywhere so you’re never without your blade. It comes in two variations, with or without scales and two profiles, a clip point or hawkbill. Both have a hollow grind and surprising cutting power despite their smaller size.

The Scaled EX-F03 has an extended grip over the all steel version. The finger ring helps with quick deployment and supplies superior hand retention. A Piranha Grip texture covers the surface providing extreme traction while a rotatable belt sheath makes sure the knife is in the right place at the right time.

Both models have deep finger grooves and textured thumb ramps to prevent slipping.

G10 SCALES

• 2.25" HAWKBILL OR CLIP POINT BLADE
• 6.50" OVERALL LENGTH
• 5.20 OZ WEIGHT
• TUMBLED 0.150" 154 CM STAINLESS
• CRYOGENICALLY HEAT TREATED TO 57-59 RC
• HOLLOW GRIND - HAND HONED EDGE
• G-MASCUS G10 OR SOLID BLACK G10 HANDLE SCALES

Ships with 2 sheaths:

• QUICK DEPLOYING SUPER TOUGH NYLON BELT SHEATH WITH ROTATING BELT CLIP
• BOLTARON® NECK KNIFE SHEATH WITH PARACORD

NECK KNIFE

• 2.25" HAWKBILL OR CLIP POINT BLADE
• 5.50" OVERALL LENGTH
• 2.10 OZ WEIGHT
• TUMBLED 0.150" 154 CM STAINLESS
• CRYOGENICALLY HEAT TREATED TO 57-59 RC
• HOLLOW GRIND - HAND HONED EDGE
• LANYARD HOLE WITH LANYARD
• BOLTARON NECK KNIFE SHEATH WITH PARACORD
• EYELETS COMPATIBLE WITH TEK-LOK™ ATTACHMENT SYSTEMS

Visit page 27 to view all models.
The Hogue EX-T01 is a versatile and customizable field tool designed to fit a variety of sporting or tactical roles. It has an extended heel and toe for penetrating cuts while the blade’s bellied shape covers slashing or chopping. Extending the functionality, holes in the back of Hawk’s head allow for optional spike, hammer or pry-bar accessories.

The head of the tomahawk has been skeletonized allowing it to be extremely lightweight and agile. The cut out is also used as the mounting point in the innovative magnetic and catch lever sheath.

The handle has a partial tang set into durable, highly textured G10. The end is pointed for use as an impact tool and is flared so the EX-T01 won’t slip out of your hand in use.

An ergonomic waist paddle with a molded-in belt clip is included.
The EX-T01 ships with a fitted zipper case. Magnetic catches and a raised section that matches the cutout on the tomahawk, secure the EX-T01 in its proper position. Once placed, a lever lock is manually engaged for safe carry. Although locked in tight, the system allows for rapid deployment.

- 14.125" OVERALL LENGTH
- TOTAL WEIGHT 1.45 LBS
- HAWK WEIGHT 0.95 LBS
- 0.250" S7 TOOL STEEL WITH CERAKOTE™
- CRYOGENICALLY HEAT TREATED TO 54-56 RC
- FLAT GRIND - HAND HONED EDGE
- MAGNETIC G10 SHEATH WITH POSITIVE LOCK
- ERGONOMIC SUPER TOUGH NYLON WAIST BAND PADDLE
- TEK-LOK™ COMPATIBLE MOUNTING POINTS

Optional hammer, spike and pry bar accessories available.

The EX-T01 ships with a fitted zipper case.
