

NEW | INTRODUCING
MYSTO
 COLLECTOR SERIES
 MAGNACUT + TITANIUM

PROUDLY MADE IN THE USA

HENDERSON, NV – The all-new Mysto has arrived! This newest addition to Hogue’s Collector Series is the first knife with titanium construction to be featured in the American-made lineup. With an illustrious CNC-milling pattern and minimal hardware, the Mysto unveils an entirely new level of elite manufacturing and production capabilities from Hogue.

Built with Hogue’s esteemed ABLE Lock® mechanism, the Mysto boasts effortless, ambidextrous operation and infallible lockup. These new models feature 0.115” thick CPM MagnaCut stainless steel and are available in upswept tanto and clip point blade profiles with stone tumbled or Armor Black Cerakote® finishes. Weighing 3.5 oz, the knife is built upon a 6AL-4V titanium frame and accented with red anodized aluminum thumb studs and backspacers. Each model also includes a deep carry, ambidextrous pocket clip and lanyard loop.

Every Hogue knife is made in the USA and is backed by three generations of manufacturing expertise. For more information, please call Hogue directly at 1-800-438-4747 or visit www.hogueknives.com.
