## The Saxum is not just carried, it's chosen.

Hogue Knives introduces their all-new Collector Series Saxum, an elevated folding knife experience in two decadent variations.

**Henderson, NV** – Hogue Knives proudly introduces the Saxum, the newest model to enter the esteemed Collector Series and a defining step forward in the evolution of premium American-made folding knives.

Designed by Jim Bruhns of Bruhns Design, the Saxum showcases a sophisticated expression of modern knife artistry and exceptional mechanical performance. Delivered in two distinctive configurations, each exemplifies Hogue's commitment to providing an elevated user experience with heirloom-level fit and finish.

The first configuration features Damascus steel with smooth Kingwood inlays and bronze anodized thumb studs. The second combines Hogue's first-ever incorporation of CPM MagnaMax, alongside lightweight carbon fiber inserts and blue anodized titanium thumbstuds. The engineers at Hogue worked directly with the inventor of MagnaMax, Dr. Larrin Thomas, on the heat treatment specifications for this high performance steel in order to confirm strict material quality and maximize its revolutionary edge retention and wear resistance.

At the heart of the Saxum lies a thrust bearing system, designed to feel effortless in every interaction and deliver remarkably fluid action. Combined with Hogue's precision manufacturing tolerances and rock-solid button lock architecture, the Saxum achieves a uniquely smooth, confident, and satisfying user experience.

Whether chosen as a collector centerpiece or a daily companion, the Saxum stands as a knife that feels substantial, dependable, and luxurious in hand.

Both new Collector Series Saxum models will make their initial debut at Hogue Knives Booth #737 at Blade Show in Atlanta, GA and fully release on July 1, 2026 at 9AM PT.

Every Hogue knife is proudly made in the USA and is backed by three generations of manufacturing expertise. For more information, please call Hogue directly at 1-800-438-4747 or visit [www.hogueknives.com](http://www.hogueknives.com).
