Hogue Introduces New SIG SAUER Precision Companion Knife

Hogue Knives is providing SIG enthusiasts with a precision built knife to pair with their P320 AXG LEGION pistol.

Henderson, NV – Hogue Knives continues to back popular SIG SAUER handgun lines by providing SIG enthusiasts with precision knives to pair with their pistols. The newest SIG firearm to receive a dedicated companion piece is the LEGION edition of the P320 AXG, for which Hogue has developed the K320 AXG LEGION manual folding knife.

This new SIG folder features solid back G10 inserts with a LEGION machine engraving identical to its pistol counterpart. The matte grey, aircraft-grade 6061-T6 anodized aluminum frame houses a 3.5" blade in either drop point or tanto blade styles, with 0.125" thick CPM S30V stainless steel, cryogenically heat treated at 58-61 HRC. Hogue's renowned ABLE Lock® mechanism is slightly recessed into the frame's surface for minimal interference, while still offering swift, ambidextrous operation. A deep carry, louvered pocket clip completes the frame package and can be positioned in a tip up or down, right or left handed configuration.

The new SIG K320 AXG LEGION will be released on November 18, 2024 at 9AM PT.

LEGION Series knives are only available retail direct from Hogue. Every Hogue knife is made in the USA and is backed by three generations of manufacturing expertise. For more information, please call Hogue directly at 1-800-438-4747 or visit www.hogueknives.com.
