**HOGUE®**

**G10 MAGRIP KITS  
FOR SIG SAUER P320 AXG**

## Hogue Releases New Innovative, Quick-Reload Magrip System

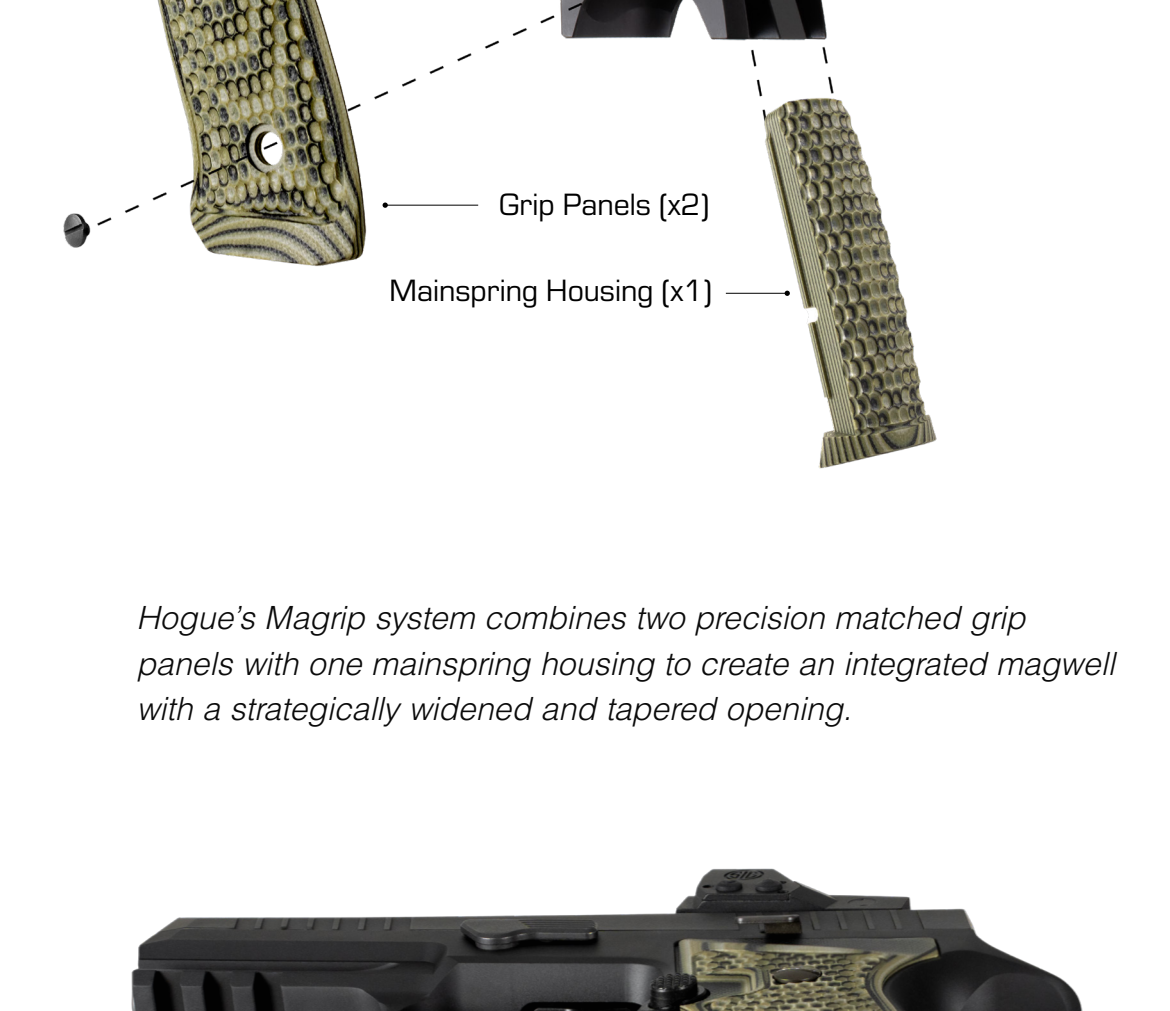

*Hogue, Inc.'s G10 Magrip Kit—a precision system developed for faster pistol reloads—is now available for the SIG SAUER P320 AXG.*

**Henderson, NV** – Hogue's Magrip system combines two precision matched grip panels with one mainspring housing to create an integrated magwell with a strategically widened and tapered opening. This allows shooters to maintain full focus on the target by granting a wider cavity to funnel the magazine into the magwell—rather than traditionally feeding a reload, which requires attention to be drawn to the magazine in order to perfectly align it with the factory magwell opening.

The new SIG SAUER P320 AXG Magrip Kit features gentle palm swells for an ergonomic grip and is comprised of G10, which provides a high strength-to-weight ratio, enhanced thermal properties and resistance to moisture and chemicals. The kits are offered in both Piranha and Checkered textures in a variety of G-Mascus® and Solid G10 colorways.

Hogue Magrip Kits are manufactured in family-owned and operated facilities under the direct supervision of the Hogue family. For more information please call Hogue directly at (1-800) 438-4747 or visit [www.hogueinc.com](http://www.hogueinc.com).
