OVERMOLDED® RUBBER GRIP EXTENSION BASE PADS FOR SIG SAUER P365 SERIES

P365 10, 12 & 15-ROUND MAGAZINES

P365X & XL 15-ROUND MAGAZINES

Hogue Inc. Releases New Rubber Grip Extension Base Pads for the P365 Series

SIG SAUER enthusiasts can further enhance their grip as Hogue delivers OverMolded® rubber technology for SIG magazines.

Henderson, NV – Hogue Inc., an industry leading manufacturer of innovative firearm accessories, is proud to announce the release of new OverMolded® Rubber Grip Extension Base Pads. These base pads are specifically designed with the ergonomics of Hogue's HandALL® Beavertail™ grip sleeve for the SIG SAUER P365 series, to create a seamless flow from grip to magazine.

These precision-fit bases extend below the magazine providing full hand grip and better control, while also protecting the magazine during quick reload ground drops.

Compatible with 10, 12, and 15-Round magazines for the P365, and 15-Round magazines for the P365XL, Hogue's OverMolded mag bases are crafted from high-quality, durable thermoplastic elastomer to deliver years of lasting service. Each grip is textured with Hogue's renowned Cobblestone™ pattern for superior grip comfort and recoil absorption, and are available in both Black and Flat Dark Earth colorways.

Every Hogue product is manufactured in family-owned and operated facilities under the direct supervision of the Hogue family. To learn more about our extended magazine bases or to explore our full SIG SAUER grip line, please call Hogue directly at (1-800) 438-4747 or visit www.hogueinc.com.
