## Hogue® Unveils New SIG SAUER® K365 Automatic Folding Knives

*New tactical push-button automatic knives designed to complement SIG's revolutionary P365 pistol line.*

**Henderson, NV** – Hogue, Inc., a leader in premium firearm and knife products, proudly announces the launch of their new SIG SAUER K365 line of automatic knives. Designed by Jim Bruhns of Bruhns Design, this knife was conceived to be the perfect match for the P365, with no shortage of intention throughout its design.

With the P365 leading as SIG's premier concealed carry pistol, the K365 meets the same compact carry capability with a 2.4 oz weight and a closed length of 4.0". The K365 also draws off notable features from the P365, including an identical stippling texture on the surface of the polyamide nylon 12 glass fiber reinforced polymer frame, as well as a triangular push-button mechanism to emulate SIG's distinctive magazine release.

The immediate, side-opening deployment delivers a stout, 2.75" CPM MagnaCut stainless steel blade with Hogue's notorious hand-sharpened factory edge. Each Clip Point blade is finished with an Armor Black or M17 Coyote Tan Cerakote® to match the respective P365 colorway. Additional features include a deep carry, reversible pocket clip with filler plate, minimal hardware, and intuitive ergonomics, making this one of the most practical and portable knives in Hogue's offerings for SIG SAUER enthusiasts.

The all-new SIG K365 lineup will release at Hogue Booth #14838 at SHOT Show on January 20, 2026 at 8:30 AM PT.

Every Hogue knife is made in the USA and is backed by three generations of manufacturing expertise. Hogue automatic knives are only for sale to legally permitted users through authorized dealers. For more information, please call Hogue directly at 1-800-438-4747 or visit [www.hogueknives.com](http://www.hogueknives.com).
