TACTICAL RIFLES

AR-15/M16 // AK-47/74 // SHOTGUN // GRIPS // STOCKS

TACTICAL GRIPS

Hogue tactical rifle grips are specifically engineered to retain the important lines and aesthetics of your tactical rifle. All of our rubber grips provide an ergonomically comfortable grip with palm swells and our exclusive Cobblestone™ pattern.

Our G10 grips are created with a woven glass-based epoxy resin laminate that is pressure compressed using our patented G-Mascus® layering which results in an extremely rugged grip.

BUTTSTOCKS & KITS

The Hogue OverMolded collapsible buttstock features a reinforced polymer construction with a rubber cheek rest and a rubber/polymer hybrid buttpad for snag-free shouldering. The unique design creates a snug anti-rattle friction fit that prevents unwanted movement along the buffer tube.

Built with the same features as the collapsible model, our fixed buttstock is a slim profile fixed option for A2-sized buffer tubes.

For ease in customizing your AR rifle, Hogue has assembled our most popular accessories into efficient 2-piece and 3-piece kit offerings.

M-LOK® COMPONENTS

While most generic foregrips limit the user to only a few support hand positions, Hogue's M-LOK OverMolded Hybrid Forend Grips combine the 45 degree and vertical foregrip into one superior grip.

Hogue M-LOK Rail Covers offer exceptional grip while organizing and safeguarding critical accessory cables from cords and snags. Each cover also enhances the user's tactical grip and provide insulation from heat, ensuring peak operational performance.

FORENDS & EXTENSIONS

All Hogue free floating forends and forend extensions are constructed with 6061-T6 aluminum and anodized to military specifications. Free floating the forend enhances the rifle's accuracy by keeping the stress off the barrel. Models are available with OverMolded gripping area and a complete collection of mounting accessories.

AK-47 / 74 COMPONENTS

Hogue's OverMolded grip and handguard kits are precision-engineered to fit both milled and stamped receivers and deliver modernized aesthetic upgrades for AK-47/74 rifles.

Each product features a streamlined design and boasts resilience, remaining impervious to traditional firearm oils and solvents.

All AK products are made in the USA and compliant with US ATF 922(r) regulations.
